PROFILE

I am a 4th year Computer Science student at Biliran Province State University with a passion for application design. I have experience in designing layouts, and I'm always looking for ways to learn and create better digital experiences.

PROJECTS

HERBMED 2025

Herbal Medicine Web Application · UI Designer (Solo)

- A web application that combines tradition and science, helping people explore the healing power of herbs and discover natural remedies.
- Designed the interface, from the glass-style login screen to the homepage and herbal remedy directory with profile pages, categories and search.

Voting System

E-Voting Desktop Application · UI Designer (Solo)

- An e-voting system that serves as a new technology for voters, with the aim of improving the electoral process.
- Designed the admin login and the "Vote Wisely" ballot for SK Chairman and SK Kagawad, with results and vote count views.
